

PRESIDENT'S MESSAGE

In a few weeks we will be swearing in the new Board for the 2011-2012 year. The date is 21-July-2011, and the incoming State President, Charlotte Maddox, will be there for the ceremony. We are in good hands with our new Board members. Congratulations to Noah as the incoming President. I want to thank the current Board members for their help this past year. Sue did a phenomenal job with our monthly newsletter, and I want to thank her especially for her hard work and efforts this past year.

The next big fund raiser will be the Golf Tournament unless I can schedule a bowling competition in the meantime. Pat, as always, is diligently working on the next golf venue, and I promise, he will be securing a great private venue again for the Tournament. This has been moved to the fall to save us from the heat, so watch for fliers to save the date.

We are trying to determine whether the bowling venue should be a family night or an adult night. Let us know your thoughts. I am working with a local center to secure the lanes and a great price for the meal, shoe rental, etc.

It is important to get active in the FES, as they are protecting the Engineering profession locally and at the State level. Bob Higgins, PE, outgoing state President, is hoping we can do a partnership with the Landscape Architects to resolve the drainage design issue that has been flaring on and off again for the past decade. The legislature will be attempted to try to limit our liability again this coming year. The FES did not expect the type of resistance this year after the success the first year when the legislation was proposed but vetoed by then Governor Crist.

Our fishing tournament has been completed and the fish fry was a great success. Those that made the tournament or the fish fry had a great time. There are still some shirts for sale, so be sure to pick up one at our next meeting.

(President's Message Continued)

It has been a fun year, leading this fine group of engineers, and I sincerely thank you for allowing me to serve as your President. We are looking at merging the Indian River county portion of that Chapter to ours, as they have not been active for several years. This was discussed at the state Board meeting, and I will continue to work with our Board and the State Board members to resolve this issue. We extended a hand to them and invited them to our meetings this past year. We will keep you posted on the status of the merger.

Steve Gaydosh, P.E.; Chapter President

COMMITTEE CHAIRS

FES is a member driven organization. Our volunteers steer the Society in the best direction. Ideas and programs are created at the committee level and impact the organization at each level. Becoming part of a FES committee is very simple and rewarding.

We have several new volunteers, however, we still need a few more. For further details on a specific committee, or if you are interested in volunteering for any of these committees, please contact Steve Gaydosh, PE at president@tcfes.org.

In addition, please thank your fellow members who are volunteering their time to make a difference.
